

# Impacts of development on mangrove

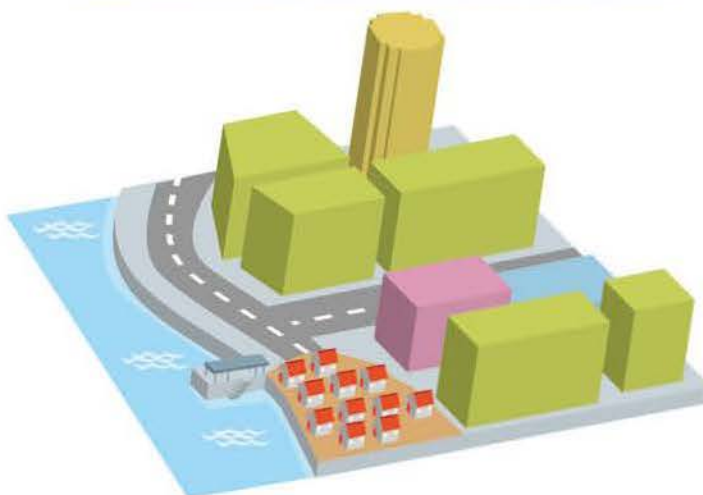

## Scenario: Development Plan of Mangrove Bay

Mangrove Bay is located on an island in Hong Kong. There is a traditional fisheries village, Many-petaled Mangrove Village near the mangroves communities. Most of the local residents there are fishermen whom make their living by fishing. Since a theme park will be established near the island, Developer see that the Mangrove Bay is an ideal place for building a hotel .

### Landform of Mangrove Bay before the development

### Landform of Mangrove Bay after the development

**Discuss the pros and cons of this project in the view of one of the following stakeholders.**

- Developer
- Ecologist
- Medical researcher
- Resident (in favor of the project)
- Resident (oppose to the project)
